DETAILED ACTION

I. Status of Application, Amendments, and/or Claims

The amendment filed in Paper No. 13 on December 17, 2002 has been entered in full. Claim 19 has been amended. Claim 19 is pending and under consideration.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office Action.

II. Withdrawn Objections and/or Rejections

The objection to Disclosure, as set forth at page 2 of the previous Office Action (Paper No. 12, September 17, 2002), has been withdrawn in view of applicants' amendment to the specification.

The rejection of claim 19 under 35 U.S.C. § 112, 1st paragraph for enablement and written description, as set forth at pages 2-8 of the previous Office Action (Paper No. 12, September 17, 2002), has been withdrawn in view of applicants' amendment to the claim.

The rejection of claim 19 under 35 U.S.C. § 102 (e), as set forth at pages 8-9 of the previous Office Action (Paper No. 12, September 17, 2002), has been withdrawn in view of applicants' amendment to the claim.

The objection of claim 19 for minor informalities, as set forth at page 9 of the previous Office Action (Paper No. 12, September 17, 2002), has been withdrawn in view of applicants' amendment to the claim.

III. Claim Rejection under 35 USC § 102

(i). The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

(ii). Claim 19 is rejected under 35 U.S.C. 102(e) as being anticipated by Au-Young et al.

(WO200107612A2, International publication date, February 1, 2001; 102 (e) date, July 21, 1999).

Au-Young et al. teach an isolated polynucleotide comprising a nucleic acid sequence (SEQ ID NO:41 of claim 11) encoding the amino acid sequence of SEQ ID NO:24 (see attached sequence alignment). Au-Young et al. further teach a method for determining the presence or amount of such a nucleic acid in a sample (claim 13).

Thus, the reference of Au-Young et al. meets the limitation of claim 19.

IV. Conclusion

No claims are allowed.
